

CALL FOR PAPERS

ICPEPSD 2020
Aug 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPEPSD 2020 : International Conference on Power Engineering, Power Systems and Power Distribution is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Power Engineering, Power Systems and Power Distribution. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power engineering
Power systems engineering
Power systems
Power distribution
Power electronics
Power flows
Electric power
Power station
Electric power transmission
Power transmission
Energy economics
Power generation
Power system protection

Utilization
Electricity
Thermal power plants
Electrical machines
High voltage technology
Power electronics
Basics of electric power
Power transmission systems
Energy storage
Electrical devices
Generators, motors and
transformers
Electric railway networks
Energy systems and energy economy
