

CALL FOR PAPERS

ICUATIFP 2020
Aug 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUATIFP 2020 : International Conference on Unmanned Aircraft Technologies and Intelligent Flight Planning is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Unmanned Aircraft Technologies and Intelligent Flight Planning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Unmanned aircraft technologies
- Unmanned aircraft systems
- Unmanned aerial vehicles
- Sensors, actuators and software
- Reactive autonomy
- Simultaneous localization and mapping
- Aircraft onboard intelligence
- Communication systems
- Intelligent flight planning
- Development considerations

- Aircraft system safety
- Air traffic control and management
- Malicious use
- Security vulnerabilities
- Modeling and simulation
- Analytical and numerical methods
- Decision-making and public-private partnership
- Legislation, privacy, training and regulation
- Military applications
- Civil applications
