

CALL FOR PAPERS

ICBLTA 2020
Aug 04-05, 2020
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBLTA 2020 : International Conference on Bioreactor Landfill Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioreactor Landfill Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioreactor landfills
Bioreactor landfill processes and technologies
Bioreactor design, analysis and management
Monitoring and control of bioreactor landfills
Potential advantages of bioreactor landfills
Bioreactor optimization techniques and technologies
Bioreactor landfills for solid waste management

Landfill bioreactor technology for waste management
Intelligent control of bioreactor landfills
Bioreactor landfill gas-to-energy systems
Mitigation of landfill gas emissions
Aerobic bioreactors
Facultative bioreactors
