

CALL FOR PAPERS

ICBMC 2020
Aug 04-05, 2020
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBMC 2020 : International Conference on Biobased Materials Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biobased Materials Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biobased Materials and Composites
Biomacromolecules and biopolymers
Pulp and Paper
Natural Fibre Composites
Interphases in Bio-based composites and Blends
Bionanocomposites
Bio-based Materials and Energy conversion
Interphases in Bio-based composites and Blends
Rheology of Natural Polymers

Processing of Natural Polymers and bio-based polymers
Processing of Bio-based composites
Degradation and Stabilization of Natural Polymer systems
Micro and Nano Blends based on Natural Polymers
Wood and Wood-Polymer Composites
Physical properties of Biobased polymers and composites
Modeling
Applications of biobased polymers and composites
