

CALL FOR PAPERS

ICECN 2020
Aug 04-05, 2020
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECN 2020 : International Conference on Experimental and Commercial Nanoglasses is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Experimental and Commercial Nanoglasses. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanoglasses

Commercial and experimental nanoglasses
General-purpose nanoglasses
High strength nanoglasses
Nanoglass chemical compositions
Nanoglass manufacturing and production
Recycling and reuse of nanoglasses
Nanoglass reinforcement
Nanoglasses for engineering applications
Atomic structure and structural stability of nanoglasses

Structural modeling of nanoglasses
Nanoglass properties
Physical properties of nanoglasses
Chemical resistance of nanoglasses
Electrical properties of nanoglasses
Thermal properties of nanoglasses
Optical properties of nanoglasses
Radiation properties of nanoglasses
Mechanical properties of nanoglasses
