

CALL FOR PAPERS

ICIRCVS 2020
Aug 04-05, 2020
Montreal, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIRCVS 2020 : International Conference on Intelligent Robotics, Computer Vision and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intelligent Robotics, Computer Vision and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Evolutionary Robotics
Distributed Sensor Networks
Robot Surgery
Search and Rescue Robots
Biorobotics
Humanoid Robotics
Autonomous Vehicles
Entertainment Robots
Rehabilitation Robotics
Micro/Nano Robotics
Underwater Robots
Service Robotics
Sensors and Early Vision

Color and Texture
Segmentation and Grouping
Motion and Tracking
Stereo and Structure from Motion
Image-based Modeling
Illumination and Reflectance
Modeling
Shape Representation
Physics-based Modeling
Object Recognition
Video Analysis and Event
Recognition
Face and Gesture
Statistical Methods and Learning
