

CALL FOR PAPERS

ICBML 2020
Aug 10-11, 2020
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBML 2020 : International Conference on Bureaucratic Management and Leadership is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bureaucratic Management and Leadership. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bureaucracy	Bureaucratic pathologies and the public choice
Bureaucratic management theory and Max Weber	Transaction cost theory
Chain of command	Organizational theory perspectives
Separation of personal and official property	Characteristics of bureaucracy
Application of consistent and complete rules	Types of authority
Selection and promotion based on qualifications	Charismatic, traditional, legal-rational authority
Features of bureaucratic organization	Standardization of work processes
Criticism of bureaucratic organization	Bureaucratic models
Bureaucratic theory of management	Advantages and disadvantages of bureaucratic approach
The scientific study of bureaucracy	Democratic or participative leadership style
The progressive era	Bureaucratic leadership style
Constitutional perspectives
