

CALL FOR PAPERS

ICBBIME 2020
Aug 27-28, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBBIME 2020 : International Conference on Biological and Bio-Inspired Materials and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biological and Bio-Inspired Materials and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biological and bio-inspired
nano-composites
Biom mineralization
Mechanics of biological materials
Structure-properties relationship
Bio-inspired self assembled
materials

Material biomimetics
Advanced characterization methods
for biological/bio-inspired
materials
Hierarchically structured
materials
Biological concepts in materials
fabrication and functionality
