

CALL FOR PAPERS

ICCSEML 2020
Aug 27-28, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSEML 2020 : International Conference on Civil Systems Engineering and Machine Learning is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil Systems Engineering and Machine Learning. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Civil systems engineering
- Civil systems
- Natural systems management
- Cyber-physical systems
- Systems engineering
- Smart systems
- Smart cities
- Urban modeling and simulation

- Behavior modeling
- Resiliency
- Disaster management
- Data analytics
- Information management
- Decision making
- Artificial intelligence
- Machine learning
