

CALL FOR PAPERS

ICDMP 2020
Aug 27-28, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMP 2020 : International Conference on Dielectric Materials and Polarization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Dielectric Materials and Polarization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Dielectric permittivity
Relaxations
Molecular mobility
Polarization
Interfacial effects
Conductivity mechanisms
Phase transitions

Electroresponsive materials
Piezo/ferro/pyroelectrics
Polar oxides
Multifunctional materials
Nanodielectrics
Polymer composites
Energy materials
