

CALL FOR PAPERS

ICFP 2020
Aug 27-28, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFP 2020 : International Conference on Fish Pathology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fish Pathology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Host-pathogen relationships	Environmental impacts of aquaculture and/or fisheries
Studies of fish pathogens	Fish biology: immunology, physiology and pathology
Pathophysiology and diagnostic methods	Fisheries, aquaculture and climate change
Descriptions of new diseases	Fisheries management ,policy and governance
Aquaculture development	Marine biology, oceanography and conservation
Aquaculture engineering	Post-harvest technology and value addition
Feeding and nutrition in aquaculture	Supply chain management in aquatic products
Aquatic resources and environmental management	Quality assurance in aquaculture
Aquaculture and fisheries economics	Micro and macro algae farming
Biotechnology and genetics in aquaculture	Aquaculture of ornamental species
Aquatic health management and diseases
