

# CALL FOR PAPERS

**ICITIDT 2020**  
**Aug 27-28, 2020**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICITIDT 2020 : International Conference on Immunological Techniques and Immunological Disease Therapies is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Immunological Techniques and Immunological Disease Therapies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Immunological techniques  
Immune regulation  
Immunological aspects of infection  
Immunological aspects of skin diseases  
Immunological aspects of allergy and anaphylaxis  
Immunology of HIV infections  
Immunological aspects of cardiac diseases  
Immunological aspects of renal diseases  
Immune-mediated neurological syndromes  
Immunological aspects of endocrine diseases  
Immunogenetics  
Molecular oncology and immunology  
Innate immune system

Immunopathogenesis  
Immunomicrobiology  
Immunoglobulins  
Immunoglycomics  
Immunoproteomics  
Immunoprophylaxis  
Molecular vaccines  
Antibody engineering  
Cancer vaccines  
Cancer stem cell therapy  
Drug therapies  
Cancer immunotherapy  
T-cell immunology
