

# CALL FOR PAPERS

**ICMSAS 2020**  
**Aug 27-28, 2020**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSAS 2020 : International Conference on Mobile Systems, Applications and Services is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mobile Systems, Applications and Services. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Experience with mobile applications, networks and systems  
Innovative mobile and mobile sensing applications  
Tools for building and measuring mobile systems  
Wearable computing and innovative mobile devices  
Software architectures for mobile devices  
Data management for mobile applications  
Infrastructure support for node mobility  
System-level energy management for mobile devices  
Operating systems for mobile devices

Support for mobile social networking and mobile Web  
Security and privacy in mobile systems  
Systems for location and context sensing and awareness  
Mobile computing support for pervasive computing  
Vehicular wireless systems  
User interfaces and usability for mobile applications and systems  
Personal-area networks and systems  
Cyber foraging and resource discovery for mobile system
