

CALL FOR PAPERS

ICMSEE 2020
Aug 27-28, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSEE 2020 : International Conference on Modeling and Simulation for Elementary Education is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Modeling and Simulation for Elementary Education. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Elementary education
Hands-On teaching for concrete learning
Collaborative and cooperative learning
The development of critical thinking as the primary goal of educational process
Education and modern technologies
Theoretical and practical education
Elementary school, knowledge and social skills
Motivation theory in educational practice
Positive interdependence
Face-to-face interaction

Individual and group accountability
Holistic approaches to learning
Child development
Modeling and simulation for elementary education
Plan and carry out investigations
Analyze and interpret data
Use mathematics and computational thinking
Construct explanations and design solutions
Engage in an argument from evidence
Obtain, evaluate and communicate information
