

CALL FOR PAPERS

ICPC 2020
Aug 27-28, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPC 2020 : International Conference on Protective Clothing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Protective Clothing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Protective textiles
Industrial protective clothing
Personal protective equipment
Chemical protective clothing
Clothing against heat and flame
Clothing against mechanical impacts
Clothing against cold
Clothing against foul weather
Clothing against chemical substances
Clothing against radioactive contamination
Fire-retardant fabrics
Chemical protection clothing
Protection clothing for aerospace/aeronautics

Cleanroom in the area of textile technology
Infection control clothing
Smart materials and wearable technologies
Smart textiles
Producing protective textiles
The use of nanofibres in textile
Biomimetic approaches to design
Textiles for protection in construction
Modeling of protective clothing
Analysis of smart materials used in producing protective textiles
Protective equipment and technical textiles
Chemical and biological protection
Full barrier protection
