

CALL FOR PAPERS

ICSDDPP 2020
Aug 27-28, 2020
Sydney, Australia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSDDPP 2020 : International Conference on Seismic Data and Disaster Prevention Parameters is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Seismic Data and Disaster Prevention Parameters. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Seismic data
Waveforms, hypocenters
Geophysical database
Global, regional, and local
networks
Project oriented data

Seismic arrays
Telescience engineering
Realtime monitoring
Disaster prevention parameters
Early warning system
