**Aug 27-28, 2020**  
**Sydney, Australia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSHMCM 2020 : International Conference on Self-Healing Materials and Construction Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Self-Healing Materials and Construction Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Self-healing materials  
Self-healing asphalt  
Self-healing ceramics  
Self-healing concrete  
Self-healing metals

Self-healing polymers and  
composites  
Smart materials  
Self-repair/healable materials  
Reversible crosslinks  
Application areas: biomedicine,  
construction materials, coatings,  
composites
