

CALL FOR PAPERS

ICCISS 2020
Aug 06-07, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCISS 2020 : International Conference on Computational Intelligence and Systems Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Intelligence and Systems Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificial Intelligence and
Cognitive Science
AI Planning
Algorithmic Learning
Artificial Intelligence
Biocomputing
Case-based Reasoning
Cognitive Modeling
Cognitive Science
Constraint Processing
Data Mining
Evolutionary Computing
Information Retrieval

Intelligent Agents
Knowledge Representation
Machine Learning
Multi-Agent Systems
Natural Computing
Natural Language Processing
Neural Networks
Perception
Reasoning
Robotics
Scheduling
Web-Information Processing
