

# CALL FOR PAPERS

**ICMGE 2020**  
**Aug 06-07, 2020**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMGE 2020 : International Conference on Marine Genomics and Evolution is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Genomics and Evolution. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine Genomics  
Marine Biology and Biotechnology  
Marine biodiversity and ecosystem  
Functional and evolutionary aspects  
of marine organisms  
Geographic and phylogenomic  
characterization of aquatic  
organisms  
Metabolic capacities and pathways  
of organisms  
Environmental genomics  
Systems biology  
Biogeochemical cycles  
Geochemical cycles

Genomics and integrative  
approaches  
Genomic technologies  
Exploring and monitoring  
biodiversity  
Developing novel model organisms  
Exploiting biotechnological  
resources  
Population genomics and ecology  
Evolutionary and developmental  
genomics  
Comparative genomics  
Metagenomics
