

CALL FOR PAPERS

ICHPBDS 2020
Aug 06-07, 2020
Vancouver, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHPBDS 2020 : International Conference on High Performance Building Design and Sustainability is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of High Performance Building Design and Sustainability. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

High performance buildings
Efficiency of resources, life cycle
design and human well-being
High performance building design
and design strategies
Well-integrated design and
construction
Building performance analysis
The energy design process for
high-performance buildings
Building energy use
Low energy systems for
high-performance buildings
Enhanced energy conservation in
houses
High performance green buildings
and sustainability

High-performance bridges
High performance concrete
Applications of high-performance
buildings
Emerging solutions for high seismic
performance
Indoor environment
Material and product selection
Water management
Economics and environmental
concerns
Measurable costs and benefits of
high performance buildings
