

# CALL FOR PAPERS

**ICACLTM 2020**  
**Sep 24-25, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACLTM 2020 : International Conference on Advances in Computational Linguistics and Text Mining is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Computational Linguistics and Text Mining. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Natural language processing  
Computational linguistics  
Sentiment analysis  
Dialogue and interactive systems  
Discourse and pragmatics  
Document analysis  
Natural language generation  
Natural language semantics

Information extraction  
Text mining  
Machine learning  
Machine translation  
Question answering  
Natural language resources  
Textual inference
