

CALL FOR PAPERS

ICVLCCA 2020
Sep 24-25, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVLCCA 2020 : International Conference on Visible Light and Camera Communication and Architectures is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Visible Light and Camera Communication and Architectures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

High throughput VLC/Camera communications
Novel applications in challenging terrains (underground, underwater etc)
Privacy and security in VLC/Camera networks

Advanced VLC systems design such as VLC MIMO, Backscatter etc.
Coexistence of VLC/Camera communication and RF, Infrared
Camera communication and Computer Vision
