

# CALL FOR PAPERS

**ICDMP 2020**  
**Sep 17-18, 2020**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMP 2020 : International Conference on Dielectric Materials and Polarization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Dielectric Materials and Polarization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Dielectric permittivity  
Relaxations  
Molecular mobility  
Polarization  
Interfacial effects  
Conductivity mechanisms  
Phase transitions

Electroresponsive materials  
Piezo/ferro/pyroelectrics  
Polar oxides  
Multifunctional materials  
Nanodielectrics  
Polymer composites  
Energy materials
