

# CALL FOR PAPERS

**ICEMATS 2020**  
**Sep 03-04, 2020**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMATS 2020 : International Conference on Epigenetic Modifications Associated with Temperature Stresses is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Epigenetic Modifications Associated with Temperature Stresses. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Epigenetics  
DNA methylation  
Histone modification  
Chromatin remodeling  
Temperature

Heat stress  
Cold stress  
Small non-coding RNA  
Transgenerational memory  
Polycomb
