

CALL FOR PAPERS

ICSBREOBPO 2020
Sep 17-18, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSBREOBPO 2020 : International Conference on Sustainable Building Retrofit, Energy Optimization and Building Performance Optimization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Building Retrofit, Energy Optimization and Building Performance Optimization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building retrofit
Energy refurbishment
Energy optimization
Sustainability
Energy efficiency
Building energy performance

Building performance simulation
Building performance optimization
Building envelope
Energy systems
Optimization methodologies
