

CALL FOR PAPERS

ICASCSBM 2020
Sep 24-25, 2020
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASCSBM 2020 : International Conference on Advances in Silicon Chemistry and Silicon-Based Materials is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Silicon Chemistry and Silicon-Based Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Low-coordinate and multiply-bonded
silicon compounds

Silicon compounds with unusual
structures

Hypercoordinate silicon compounds

Silicon transition-metal complexes

Bonding and structure

Reactions and mechanisms

Silicon-based materia
