

CALL FOR PAPERS

ICFDHE 2020
Sep 10-11, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFDHE 2020 : International Conference on Food Design for Healthy Eating is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Design for Healthy Eating. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Theories and principles of design for healthy eating
Design influencing habitual food choices (e.g., through nudging)
Theoretically informed and/or empirically evaluated design case studies
Company strategies that support healthy eating
Social implications of design interventions

Ethical considerations
New sensors and feedback mechanisms
Application of new technologies, such as 3D printing
Multi-sensory packaging design
