

CALL FOR PAPERS

ICANFEM 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICANFEM 2020 : International Conference on Advances in Non-Ferrous Extractive Metallurgy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Non-Ferrous Extractive Metallurgy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Extractive metallurgy
Extractive metallurgy methods
Metallurgical testing
Technology
Non-ferrous extractive metallurgy
Activated minerals
Process and methods of extraction of metals
Process of separating commercially valuable minerals from their ores
Natural mineral deposits
Mineral processing
Magnetic separation
Froth floatation

Leaching
Hydrometallurgy
Precipitation
Distillation
Adsorption
Solvent extraction
Pyrometallurgy
Calcining and roasting operations
Electrometallurgy
Electrowinning
Electro-refining
Washing, concentration, separation, chemical processes and extraction of pure metal
