

# CALL FOR PAPERS

**ICASSE 2020**  
**Sep 21-22, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASSE 2020 : International Conference on Advances in Steel and Structural Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Steel and Structural Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Metallurgy-steel applications  
Technological advancement in  
construction sector  
Seismic design  
Composite structures  
Building science and technology  
Water resources engineering

Fabrication and construction  
Architectural design and case  
studies  
Urban planning and design  
Civil engineering  
Concrete structure  
Fire protection engineering
