

CALL FOR PAPERS

ICCME 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCME 2020 : International Conference on Chemistry of Macrocycles and Extractants is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemistry of Macrocycles and Extractants. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Drug development
Drug design, drug delivery
Theranostics
Molecular recognition—sensors,
catalysis

Self-assembly
Macrocycle inorganic hybrids, metal
organic frameworks
Extractants, coordination chemistry
