

CALL FOR PAPERS

ICCPMS 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCPMS 2020 : International Conference on Cyber-Physical Systems for Manufacturing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyber-Physical Systems for Manufacturing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cyber-physical manufacturing
Cyber-physical systems in manufacturing
Mobile cyber-physical systems
Architecture design of cyber-physical systems in manufacturing
Formal modeling and control of cyber-physical manufacturing systems

Cyber-physical systems in distributed manufacturing
Cyber-physical systems in cloud manufacturing environment
Information acquisition and processing
Cyber-physical systems acceptability and efficiency for human-machine cooperation in manufacturing
Cyber-physical systems for sustainable manufacturing
