

CALL FOR PAPERS

ICEAMT 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEAMT 2020 : International Conference on Electrical Apparatus, Machines and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Apparatus, Machines and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Field problems, study, design and optimization
Materials and technologies
Low-voltage apparatus
High-voltage apparatus
Actuators and sensors

Power electronics
Transformers, electrical machines and drives
Electrotechnological processes and apparatus
Renewable energy and power quality
Informatics, computer science and communications
