

# CALL FOR PAPERS

**ICECEME 2020**  
**Sep 21-22, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECEME 2020 : International Conference on Electrical, Computer, Electronics and Mechatronics Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical, Computer, Electronics and Mechatronics Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronics, Robotics and  
Mechatronics Engineering

Actuator design, robotic mechanisms  
and design, robot kinematics and  
dynamics

Agile Manufacturing

Agriculture, construction,  
industrial automation,  
manufacturing process

Automation and control systems,  
middleware

Biomedical and rehabilitation  
engineering, welfare robotics and  
mechatronics

Cellular Manufacturing

Concurrent Engineering

Design for Manufacture and  
Assembly

Distributed Control Systems

Flexible Manufacturing Systems

Humanoid robots, service robots

Human-robot interaction,  
semi-autonomous systems,  
telerobotics

Information Technology Applied to  
Knowledge Based Systems

Lean Manufacturing Logistics

Machine Vision

Management of Technology

Manufacturing

Mining robotics

Mobile robotics

Modeling and Simulation Scheduling

Nano/micro systems and  
applications, biological and  
medical applications

Navigation, localization,  
manipulation

Operations Management

Rapid Prototype
