

CALL FOR PAPERS

ICEEDS 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEDS 2020 : International Conference on Environmental Engineering, Design and Sustainability is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Engineering, Design and Sustainability. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

New technologies in water and wastewater treatment
Municipal and industrial waste management
Rainwater and snowmelt in urban areas
Protection against flooding

Sustainable management of natural resources
Forestry as part of environmental design
Reclamation of degraded and devastated areas
Sustainable energy management in the environment
