

CALL FOR PAPERS

ICEEITCE 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEITCE 2020 : International Conference on Electrical Engineering, Information Technology, and Computer Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Engineering, Information Technology, and Computer Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Artificial Intelligence and Its Applications
Big Data Analytics and Algorithms
Bioengineering
Circuits and Systems
Climate Change Mitigation
Communication, Networks, and Information Theory
Computer Engineering
Computer Vision Applications
Control and Automation
Data Mining
Distributed Generation
e-Health, Smart Learning, Intelligent Processing
Efficient Resources Utilization

Electrical Engineering
Electrical Machines, Power Electronics and Drives
Electrical Systems and Technology
Embedded Internet
Embedded System, Sensors, Actuators
Energy Planning and Policy
Energy Science and Technology
Fuzzy Logic and Control
Genetic Computation
Green Architecture, Energy in Building
Grid Computing and Cloud Computing
ICT Architecture for IoT
Information Infrastructure for Smart Living Spaces
