

CALL FOR PAPERS

ICEEM 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEM 2020 : International Conference on Enterprise Engineering and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Enterprise Engineering and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Enterprise engineering
Advances in enterprise engineering
Enterprise engineering and applications
Business process management and improvement
Business process modelling and simulation
Business rules
Business rules management
Collaborative, participatory, and interactive modelling
Domain ontologies
Domain reference ontologies
Enterprise architecture
Enterprise design and implementation
Enterprise transformations

Enterprise governance
Enterprise modelling and simulation
