

CALL FOR PAPERS

ICGGG 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGGG 2020 : International Conference on Geoelectricity, Geomagnetism and Geophysics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geoelectricity, Geomagnetism and Geophysics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geoelectricity

Geoelectricity, geomagnetism and geophysics

Geoelectricity data analysis

Measurements of electric and magnetic fields

Electric earth currents

Secular variations

Diurnal variations

Exospheric-origin variations or micropulsations

Atmospherics

Stellar variations

Subsurface geophysical exploration
