

# CALL FOR PAPERS

**ICIME 2020**  
**Sep 21-22, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIME 2020 : International Conference on Industrial and Manufacturing Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial and Manufacturing Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing Engineering  
Manufacturing system and simulation  
Manufacturing processes and technology  
CAM, CIM, FMS  
FEM in manufacturing  
Cellular manufacturing  
Lean and Agile Manufacturing  
Nano Fabrication and Precision Engineering  
Mechatronics  
Computer Aided Metrology  
Material Science  
Advances in Composites  
Nanomaterials

Surface Modification Technologies  
Materials Characterization  
Automation  
Industrial Automation and Process Control  
Intelligent Controllers  
Virtual Instrumentation in Automation  
Machine Vision system  
Industrial Robots and Automation  
Programmable Logic Controllers & Distributed Control System  
Embedded System  
SCADA  
Sensors for Automation  
Vibration Engineering
