

CALL FOR PAPERS

ICINCVI 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICINCVI 2020 : International Conference on Industrial Noise Control and Vibration Isolation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Noise Control and Vibration Isolation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial noise control
Acoustic measurements
Transmission of sound
Noise sources and noise analysis
Manufacturing and industrial noise reduction

Silencer design
Noise control regulations
Vibration analysis and instrumentation
Vibration isolation for noise control
Measurement techniques for sound level meters
