

# CALL FOR PAPERS

**ICLMCMF 2020**  
**Sep 21-22, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLMCMF 2020 : International Conference on Lignocellulosic Materials, Chemical Modification and Functionalization is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Lignocellulosic Materials, Chemical Modification and Functionalization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomass valorization  
Cellulose and lignocellulosic  
constituents  
Chemical modification and  
functionalization  
Green chemistry  
Biocomposites

Material, process, and product  
interactions  
Eco-friendly material  
Natural fibers  
Biomaterials
