

CALL FOR PAPERS

ICMCSE 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCSE 2020 : International Conference on Mechanical and Computer Systems Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical and Computer Systems Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Manufacturing Processes
Traditional/Non-traditional
Manufacturing
CAD/CAM/CIM/FMS/CAPP/CAE
Robotics and Automation
Concurrent and Reverse Engineering
Agile/Virtual/Lean Manufacturing
Rapid and Virtual Prototyping
Electrical/Electronic/Optical
Manufacturing
Embedded Systems
Mechatronics
Web-based Design and Manufacturing
Green/Energy Manufacturing
Materials Applications

Sensor and Sensing Technology
Fiber Optics/Microwave
Communications
Micro/Nanotechnology in
Manufacturing
AI/Expert Systems/Neural
Networks/Fuzzy Logic in
Manufacturing
Laser Technologies
Electromagnetic Applications
Modeling/Simulation/Optimization in
Manufacturing Systems
Multimedia Applications
Customer Driven Production
Automated Inspection and Quality
Control
International Quality Standards
TQC/TQM/ISO Standards
Diagnostics and Maintenance
