

# CALL FOR PAPERS

**ICME 2020**  
**Sep 21-22, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICME 2020 : International Conference on Mathematics and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mathematics and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering mathematics  
Ordinary and partial differential equations  
Integral equations  
Asymptotics  
Variational and functional-analytical methods  
Numerical analysis  
Computational methods  
Applied fields  
Continuum mechanics  
Stability theory  
Wave propagation  
Diffusion  
Heat and mass transfer

Free-boundary problems  
Fluid mechanics  
Aero- and hydrodynamics  
Boundary layers  
Shock waves  
Fluid machinery  
Fluid-structure interactions  
Convection and combustion  
Acoustics and multiphase flows  
Transition and turbulence  
Creeping flow, rheology and porous-media flows  
Ocean and atmospheric engineering  
Solid mechanics
