

CALL FOR PAPERS

ICMIWN 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMIWN 2020 : International Conference on Mobile Internet and Wireless Networks is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mobile Internet and Wireless Networks. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mobile internet

Wireless network architectures and applications

Mobile internet and wireless networking

Mobile use of the internet

Mobile internet traffic and usage analysis

Wireless LANs: IEEE 802.11

Mobile IP routing

TCP over wireless

GSM air interface

GPRS network architecture

Wireless application protocol

Mobile agents

Mobile ad hoc networks

Cellular Networks

Ad hoc Networks

Limitations of the mobile environment

Wireless vs wired networks

Cellular systems
