

CALL FOR PAPERS

ICNDDTS 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNDDTS 2020 : International Conference on Novel Drug Delivery Technologies and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Novel Drug Delivery Technologies and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Novel drug delivery systems
Recent advances in novel drug carrier systems
Pharmaceutical carriers
Types of drug delivery
Drug formulation
Medical device or dosage form/technology to carry the drug inside the body
Mechanism for the release
Carrier based drug delivery systems
Transdermal drug delivery systems
Pharmaceutics and novel drug delivery systems
Pre-formulation considerations for conventional dosage form development

Formulation aspects for various routes of drug administration
Recent technologies in novel drug delivery systems
Nanotechnology in drug delivery systems
Prodrugs for targeted drug delivery
Recent advances in targeted drug delivery system
Major challenges in drug delivery system
Physiological considerations for drug delivery
Vaccine drug delivery systems
Advances in biotherapeutics-drug discovery and development
Medical devices for drug delivery
