

CALL FOR PAPERS

ICPE 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPE 2020 : International Conference on Physics and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Physics and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering physics
Engineering physics and applications
Engineering research and scientific methods
Engineering physics applications
Algorithms and model validation
Computational tools for engineering physics
Orbital mechanics and structural vibrations
Beam and plate deformations
Heat transfer and neutron diffusion
Engineering physics and analysis

Advanced topics in engineering physics
Micro- and nanoscale mechanics
Vacuum technology
Programming for engineering physics
Aerospace science
biophysics and medical physics
renewable energy
Quantum information science
Semiconductors and materials development
