

# CALL FOR PAPERS

**ICPTPDRDS 2020**  
**Sep 21-22, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPTPDRDS 2020 : International Conference on Pharmacogenetics Testing Process, Drug Response and Dose Selection is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pharmacogenetics Testing Process, Drug Response and Dose Selection. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pharmacogenetics testing and drug development  
Pharmacogenetics testing for medication and drug response  
Pharmacogenetics testing for dose selection  
Clinical pharmacogenetic testing and applications  
Clinical trials of drug-gene testing

Drug-drug and gene-drug interactions  
Psychiatric Pharmacogenetics testing  
Current limitations of pharmacogenomics tests  
Ethical and social issues in pharmacogenetics testing
