

CALL FOR PAPERS

ICRCS 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRCS 2020 : International Conference on Remote Control and Sensing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Remote Control and Sensing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Remote control
Remote control systems and technologies
Automation and remote control
Wireless remote control technology
Wireless remote control systems

Wireless data controller
Wireless switch systems
Wireless automation systems
Industrial remotes and mobile control
Remote control techniques
