

CALL FOR PAPERS

ICREP 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICREP 2020 : International Conference on Renewable Energy Policies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Renewable Energy Policies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Renewable energy policies
- Renewable energy policies for developing countries
- Renewable energy policies in the world
- European climate and energy policy framework
- Community support for renewable energy
- Renewable energy use in the electricity and transport sector
- Renewable energy procedures and standards
- Law and legislation related to renewable energy
- Renewable energy in the transport sector
- Scenario development and policy debates
- Renewable energy market development
- Renewable energy promotion policies
- Transport biofuels policies
- Emissions reduction policies
- Power-sector reconstruction policies
- Distributed energy generation policies
- Renewable energy and rural electrification policies
