

# CALL FOR PAPERS

**ICSIR 2020**  
**Sep 21-22, 2020**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSIR 2020 : International Conference on Social Intelligence for Robots is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Social Intelligence for Robots. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Social intelligence and robotics  
Socially intelligent robots  
Social robotics  
Human-robot interaction  
The nature of social intelligence  
Social skills  
Social interactions with robots  
Mobile robotic toys  
Artificial emotions for managing social behavior  
Interaction using visual signs  
Robotics and human environment  
Interaction and collaboration among robots, humans, and environments

Robots to assist the elderly and persons with disabilities  
Socially assistive robots to improve quality of life  
Affective and cognitive sciences for socially interactive robots  
Personal robots for the home  
Social acceptance and impact in the society  
Robot ethics in human society  
Context awareness, expectation, and intention understanding  
Control architectures for social robotics  
Socially appealing design methodologies  
Safety in robots working in human spaces  
Human augmentation, rehabilitation, and medical robots  
Robot applications in education, entertainment, and gaming
