

CALL FOR PAPERS

ICSISC 2020
Sep 21-22, 2020
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSISC 2020 : International Conference on Subsurface Investigations and Subsurface Conditions is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Subsurface Investigations and Subsurface Conditions. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Subsurface investigations
Geotechnical site characterization
Subsurface exploration planning
Subsurface conditions
Soil and rock exploration
Remote sensing
Geophysical investigations

Disturbed sampling
In-situ investigation
Undisturbed sampling
Standard penetration test
Rock coring
Subsoil exploration technologies
Soil exploration reports
